ACCELERATING COCA COLA'S HEALTHY BEVERAGE PORTFOLIO

Presented by: Sadhana Sivakumar

EXECUTIVE SUMMARY

How can we induce growth in the healthy beverage portfolio of Coca Cola in Indonesia ?

1. To maximise profits we need to grow the healthy beverage portfolio of Coca Cola
2. We can do this by using promoytional strategies to target the two key drivers, high market competition and poor taste perceptions
3. We can implement 5 possible strategies over te next five years adapting our approch based on the impact of teh strategies

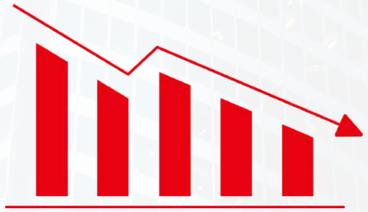

WHY DRIVE GROWTH IN THE HEALTHY BEVERAGE PORTFOLIO?

Functional Drinks Market CAGR + 8.8%

-mobility forsights

Soft Drink Market in decline since 2023, fall by 0.5% in 2025

-CNBC

Sweetened drinks tax from 2027

-JakartaGlobe.id

WHY DRIVE GROWTH IN THE HEALTHY BEVERAGE PORTFOLIO?

By strategically driving growth and weightage of healthy drinks in Coca Cola's portfolio, profits can be maximised by decreasing the effect of sweet drinks tax and decline of soft drinks industry in Indonesia while capturing the growth of functional/healthy beverages in Indonesia

WHY DRIVE GROWTH IN THE HEALTHY BEVERAGE PORTFOLIO?

Indonesia is the largest consumer of Coca Cola products in SEA region

Increasing trend in SEA reigon to tax sweetened drinks or discourage consumption of soft drinks

Indonesia can serve as the primary innovation testing ground before scaling across rest of SEA reigon to maximise profits and reduce risks by growing healthy beverage portfolio

WHAT ARE BARRIERS TO GROWTH IN HEALTHY DRINKS PORTFOLIO?

High Price of Functional or Healthy Drinks

Taste perceptions of consumers

Lack of information on what is actually healthy

High Competition in market

Lack of marketing leaving consumers unaware of Coca Cola's healthy drinks

WHAT ARE BARRIERS TO GROWTH IN HEALTHY DRINKS PORTFOLIO?

High Price of Functional or Healthy Drinks

Taste perceptions of consumers

Lack of information on what is actually healthy

High Competition in market

Lack of marketing leaving consumers unaware of Coca Cola's healthy drinks

WHY LACK OF INFORMATION ON WHAT IS ACTUALLY HEALTHY IS IRRELAVANT?

- survey by Jakpat 2025 shows rising health literacy in Indonesia with health becoming a priority to Indonesians
- this suggests that lack of health literacy may not be a barrier to Coca Cola’s healthy/functional drink portfolio growth as people already have awarenes on what products are healthy and actively try to consume them
- this is highlighted by Jakarta Lead Researcher, Farida Hasna who says healthy living habits are starting to become part of people’s routines

WHY LACK OF MARKETING LEAVING CONSUMERS UNAWARE OF COCA COLA'S HEALTHY DRINKS

- Coca Cola's Europcaific Partners website confirms that "our brands are part of everyday life across Indonesia.'' which shows that coca cola's healthy beverages or functional drinks are widely recognized in Indonesia.

HIGHER PRICE OF HEALTHY/FUNCTIONAL DRINKS

- Pricing is a key factor driving consumption of less healthy foods. ATNi's Retail Pricing Analysis found that in Indonesia, a nutritious retail food basket costs 10.8% more than a less healthy food basket.
- Sweeter soft drinks cost less than healthier options

HIGH COMPETITION IN FUNCTIONAL DRINKS MARKET

- In the Indonesia Functional Drinks Market, several challenges exist, including increasing competition from both local and international brands
- Strong competition from PocariSweat, IsoPlus Aqua and more

TASTE PERCEPTIONS OF CONSUMERS

- Brands that keep taste while lowering sugar should win loyalty among health-aware urban households
- Changing consumer prefernces serve as a key challenge in growth of healthy

“We can’t change the price of product using marketing so we will focus on adressing high competition and taste perceptions to grow functional/healthy drink portfolio”

PROPOSED SOLUTIONS

Solutions	In Addressing Taste Pecreption	In Addressing High Market Competition
1. Seasonal Marketing/ Cultural Marketing	Low impact; same taste	High impact; brand loyalty and association with cultures
2. Experential/Sampling marketing	High impact, overcome poor taste perceptions	Medium impact; might convince people that coca cola's products better than other brands
3. Digital marketing; Partnering with Local Creators	High Impact; builds good reputation for taste of products	Medium Impact; same reason as experential marketing
4. Check out counter placement and cooled storage	Low Impact; if it tastes bad it tastes bad	Medium Impact; better placement of drinks may trigger impulse buy in hot weathers over competitor drinks

WHICH ONES ARE MOST IMPACTFUL

Based on evaluation table and how effectively they tackle barriers to growth

Digital marketing; Partnering with Local Creators

Experiential Marketing; Sampling

PROJECT BUDGET ALLOCATION

By Phase

Phase 1 → Pilot / Year 1

- Implement all 4 strategies spending 40% on each of the main 2 strategies on previous slide and 10% each on two less prioritised strategies

1.5 Million Dollars

Phase 2 → Adjustments Phase/ Year 2

- Based on the impact of each strategy based on Phase 1 reallocate money spent on each strategy scraping really bad strategies or decreasing spending. Reallocate money to more succesful strategies

2 Million Dollars

Phase 3 → Scaling Expansion/ Year 3-5

- Scale strategies to more reigons and spend more on strategies following feedback gained form year 2

6.5 Million Dollars

SAMPLE POST

sample post made with generative AI; person used would be an indonesian creator with many followers ages 18 -35 (target group)
